Placement of Dumpsters on Sugarhill Roads

Due to safety concerns voiced by community members regarding placement of large dumpsters on the Association owned streets. We are requiring that before you and your contractors place dumpsters you call for our approval of the location of the dumpster. Also please be aware that if the dumpster ends up in any area other than the approved location you will be required to have it moved at your expense.

It is very important that someone with knowledge of the approved location be on site when the delivery happens to assure that the dumpster is placed correctly.

Thank You,

John Doty, Board President
Sugarhill Property Owners Association
