

Why Electronic Voting

Florida 2018 Statute 720.317 Electronic Voting allows POA homeowners to vote electronically, here are the reasons it is a good thing for Sugarhill:

- Our Association HOA board certified attorney has fully endorsed this voting process.
- As of December 2019 70 residence (75%) have consented to vote electronically.
- The security of the voting process eliminates any chance of fraud.
- The security of the system meets all the Statute 720.317 requirements.
- The system makes accidental double voting impossible.
- The process saves Sugarhill substantial money in postage and paper.
- E-voters do not have to attend the meeting but they can if they want.
- Statistics show quorum is always met when electronic voting is used.
- This reduces Board members labor. That makes board burnout much less of a problem.
- E-voting can be done anytime the election is running and it can run for weeks if selected.
- Final tally is 100% accurate.
- The process we choose blocks all connection between the voter and the ballot. No one can ever see who voted what, **fully anonymous**.

If you decide you want to be involved in E-voting fill out this card and bring it to the meeting or give it to a Board member.
