

*Uh Oh,* things are getting  
a little too dark around  
here at night.  
Looks like your  
streetlight is out.

*Please fix your light for the sake  
of all the  
night people.*

People have noticed that your street light is not working. As we get closer to shorter days and longer nights this becomes a problem. Sugarhill doesn't have any street lights other than the ones in our front yards. In case you didn't know, you are required to keep it working all night. Thank you, and if you need any help give me a call 772-485-6670.

*John Doty, Sugarhill POA*
